18 GOOD SAMARITAN HOSPITAL 2016 Honor Roll of Donors

29 FUND DEVELOPMENT: Welcoming Our Newest Staff Members Kim Cabral and Keri Eisenberg

MISSION STATEMENT

Good Samaritan Hospital is a progressive, tertiary, nonprofit hospital. Our Mission is to provide accessible, quality, cost-effective and compassionate healthcare services that meet the needs of our patients and their families, the community and physicians.

Good Samaritan Hospital’s centers of excellence focus on advancing the science of medicine and providing outstanding healthcare.

We will manage our resources responsibly, maintaining the financial viability necessary for success.
With Gratitude

to our Good Samaritan family!

What an extraordinary year it has been! We give thanks to our generous partners and members of our Good Samaritan community for their support throughout this year.

Our vision for providing outstanding healthcare in the future will soon be realized with the opening of the entire Medical Pavilion.

The lobby and physician offices are now occupied. Our Radiation Oncology Department and the Frank R. Seaver Ambulatory Surgery Center will be operational in 2017.

Our Mother and Baby Care Campaign is in full swing and we will soon meet our goal of raising $3.5 million to offset costs for the remodel of Labor & Delivery rooms and for much needed equipment in the NICU and Maternal Child Department. These advances to our medical campus could not have been realized without the extraordinary support of our physicians, nurses, staff, benefactors and our Board of Trustees. We are so grateful for their continued commitment to Good Samaritan Hospital.

Of course, we can’t mention our Board of Trustees without recognizing Susan Blumenthal. Susan has been a friend and patron of Good Samaritan for almost 40 years through her contributions as a member of the Auxiliary, and later as our Development Chair on the Board of Trustees. We are grateful for her dedication, time and contributions to the Good Samaritan community.

We would also like to thank our team of physicians, nurses and staff for putting our patient care first. We recognize one of our many partners in health, Dr. Rangasamy Ramanathan. Dr. Ram, as he is fondly known, is a member of our physician donor group, Partners In Health. Dr. Ram is one of over 150 physicians who generously give back to our hospital community. Thank you Dr. Ram and all of our members of Partners In Health for all you do!

The commitment of our Good Samaritan community is the reason why we can continue to provide the highest quality care to all of our patients. We couldn’t do it without the support and goodness of all of our members of our Good Samaritan family.

Very truly yours,

Charles T. Munger
Chairman of the Board of Trustees

Andrew B. Leeka
President and Chief Executive Officer
In November 2014, the United States Department of Agriculture, under its Rural Development umbrella, awarded a $417,560 federal grant to Good Samaritan Hospital. Many were asking: what is rural about downtown Los Angeles? Absolutely nothing! However, Good Sam was able to make the rural case for the island of Guam in a very exciting and unique partnership.

Located 6,000 miles from Los Angeles, Guam is a U.S. territory in the Micronesian region of the Western Pacific Ocean. Good Samaritan Hospital has had a strong and lasting bond with Guam for more than 30 years, providing medical care to the island and nearby regions. Guam is one of the most underserved areas where U.S. citizens do not have access to specialized physicians available on the mainland for complete medical care. Additionally, almost 30% of islanders are medically indigent and cannot financially afford to travel off the island for medical treatment and as a result, Guam’s death rate is 8.5% higher than the U.S. mainland. It became evident when an opportunity to provide Telemedicine services for the residents of Guam that Good Sam could provide a significant benefit to the public health community.

Good Samaritan Hospital and the Guam Telemedicine Project

Providing High Quality Care to underserved communities
Good Samaritan Hospital has had a strong and lasting bond with Guam for more than 30 years, providing medical care to the island and nearby regions.
Good Samaritan Hospital, in partnership with Guam’s Department of Public Health and Social Services (DPHSS), officially launched the Guam Telemedicine Program on June 8, 2016. Medical consultations via telemedic video workstations have already begun for dermatology and rheumatology patients on the island. Leveraged with the USDA grant, Good Sam raised an additional $200,000 to purchase and provide high definition cameras, digital monitors, networking equipment and electronic diagnostic devices. Why Public Health? Because nearly 30% of islanders are medically indigent and the project would safely and effectively meet the needs of Guam’s most at-risk population.

The Program is led by cardiologist Juan C. Quiros, M.D. and Medical Director of the Guam Medicine Referral Program, who has been traveling to Guam four times a year himself for nearly two decades to see patients and work with on-island health care providers. Dr. Quiros said during the public launch: “The telemedicine program will facilitate real time, secure video conferencing between Good Samaritan Hospital’s medical specialists in Los Angeles and the Public Health clinics in Guam.” Physicians Rachael Cayce, M.D., and Soha Dolatabadi, M.D. have been instrumental as Good Sam’s first physicians providing medical services via telemedicine.

Dr. Dolatabadi described the need for telemedicine perfectly: “One gentleman from Guam came to see me last month. His gout had gone untreated and many of his bones have been destroyed. He is not even 40. This could have been managed. He didn’t have to suffer this much and then become disabled. The telemedicine project will provide a patient with the opportunity to manage his or her disease and lead a fuller life.”

Good Sam physicians are currently providing medical consults with a Guam Nurse Practitioner out of the Northern Region Clinic in Dededo. The Program is expected to expand telemedicine services to the Southern Region Clinic in Inarajan, as well as the smaller, more remote Public Health sites in Santa Rita and Tiyan within the next six months.
“The telemedicine program will facilitate real time, secure video conferencing between Good Samaritan Hospital’s medical specialists in Los Angeles and the Public Health clinics in Guam.”
— Juan C. Quiros, M.D.
A native of India, his father encouraged him to go to medical school. Soon after, he trained in a government hospital where 30,000 babies were born each year. The hospital lacked the proper medical equipment resulting in a very high infant mortality rate each year. He recalls, “Mothers and their babies had to lie on mats on the floor. I really wanted to make a difference.” So Dr. Ram made the decision to travel to the United States to study neonatal medicine.
In addition to his role as a neonatologist at Good Samaritan, he is also a Professor of Pediatrics at the Keck School of Medicine of USC and, is internationally renowned in his field. In 1989, he joined Good Samaritan Hospital and, has hospital privileges at a half dozen other hospitals in Southern California. He is the Division Chief of Neonatology at LAC+USC Medical Center and directs one of the largest fellowship programs in neonatology. He teaches young pediatricians to become the best neonatologists.

Inspired by his father’s generosity of spirit, Dr. Ram never fails to give back to the community. “When I was growing up in India we had the caste system. We had untouchables, poor people who would work on the farm and could not come into the house. My dad would invite them in and feed them. He gave me a sense that you should help.”

Since becoming part of the Good Samaritan family, Dr. Ram has so generously supported Good Sam through both Partners In Health and the Mother and Baby Care Campaign.

Partners In Health (PIH) is Good Samaritan Hospital’s physician donor group. Since its inception, over 150 physicians have contributed nearly $3.5M to Good Sam by supporting the hospital’s programs, services and highly specialized departments with annual gifts of $1,000 or more. Due to the commitment of our Partners In Health, we are able to make a difference in the lives of our patients and their families at Good Sam.

Dr. Ram recognizes the importance of philanthropy and how it positively impacts our entire Good Samaritan family. “My wife Prema is very supportive. I am very comfortable. I have a house, family, two daughters and two beautiful grandchildren. God has blessed me. I am here to save and help babies. I wouldn’t trade this job for anything.”

We are so thankful to all of our doctors who are members of PIH for their continued dedication to Good Sam! If you would like to join Dr. Ram and give to Good Sam through Partners In Health, please contact Kim Cabral, Annual Giving Manager in Fund Development at (213) 977-2935 or email kcabral@goodsam.org.
Since becoming part of the Good Samaritan family, Dr. Ram has so generously supported Good Sam through both Partners In Health and the Mother and Baby Care Campaign.

Dr. Rangasamy Ramanathan with the NICU staff at Good Samaritan Hospital.
Susan attended Stephens College in Columbia, Missouri, and then returned to her native Los Angeles. She met her future husband, Jack Blumenthal, on a blind coffee date in 1963. “It wasn’t a coffee date like today,” she explains, “he came to the house and picked me up.” She laughs, remembering her first telephone call from him and telling her mother after hanging up, “He sounds really nice.” This past September they celebrated 53 years together.

It doesn’t take long after meeting the Blumenthals to realize that they are both innovative thinkers and true humanitarians. “Her passion has always been healthcare and mine has always been education,” Jack explains.
Susan continues to choose Good Sam and its physicians for her own personal care. She is especially fond of her cardiologist, Dr. David S. Cannom, who has been caring for her for more than 30 years. Dr. Cannom is the Director of Cardiology at Good Sam, a world-class cardiologist and a leader in the treatment of atrial fibrillation or A-Fib.
Jack Blumenthal, like his wife, is a native Angeleno, and a Bruin through-and-through receiving his BA, MA and Ph.D. degrees from UCLA. He was an engineer with aerospace pioneer and industry giant, TRW for 36 years. After retiring in 1998, Jack’s deep interest in education then drew him to teaching. “I thought I would enjoy teaching high school for a couple of years.” That was 18 years ago, and he is still teaching at an all-girls Catholic high school. “Turned out to be a second career and a good one….A lot of girls have been brain-washed to think that they couldn’t do math, which isn’t true at all. I think they are just as capable in the math and sciences.” Jack and Susan seem to inspire each other to constantly look for ways to make a difference in their community.

Susan’s interest in healthcare coupled with her determination to make a difference in the community inspired her to join Good Sam’s Auxiliary in the late 1970s. In 1984, she was appointed Auxiliary President. An astute fundraiser, Susan worked with the other members of the Auxiliary on the Golden Thimble project, an annual needlework show raising hundreds of thousands of dollars to support the Hospital and its programs. Her passion for Good Sam and its patients caught the eye of Hospital leadership, and in 1997, Susan was asked to join the Board of Trustees. As the Development Chair of the Board of Trustees, she has been instrumental in enabling Good Sam to secure new donations from foundations and motivating others to support the Hospital.

It doesn’t take long after meeting the Blumenthals to realize that they are both innovative thinkers and true humanitarians.

It was while volunteering with the Auxiliary that Susan learned about the Hospital’s extraordinary team of physicians – the source of her more than 40 years of philanthropic pride and passion for Good Sam. “I think the doctors on staff in this Hospital are outstanding. You feel like it is a family.” She is also moved by the community Good Sam serves. “From people who live in Hancock Park to people who live on the street – they all receive the same outstanding care.” For these reasons, Susan continues to choose Good Sam and its physicians for her own personal care. She is especially fond of her cardiologist, Dr. David S. Cannom, who has been caring for her for more than 30 years. Dr. Cannom is the Director of Cardiology at Good Sam, a world-class cardiologist and a leader in the treatment of atrial fibrillation or A-Fib.

It has been almost 40 years since Susan Blumenthal became a friend of Good Samaritan Hospital. She is an advocate, visionary and driving force helping to ensure that the Hospital delivers the highest quality care to every patient, every time.
Vernis G. Adams began her career at St. Francis Hospital in Los Angeles and became chief technologist of the clinical medical laboratory department. She then joined Clinical Laboratory Medical Group (CLMG) which provided laboratory services for hospitals in Los Angeles including Good Sam, and trained new medical lab technologists (med techs). She became the Education Coordinator with CLMG and was responsible for the educational curriculum for lab tech students and the internship program. Vernis met hundreds of students through the CLMG program, and one of them was a student by the name of Eileen A. Johnson.

Eileen trained at St. Francis and was hired on as a med tech. Like Vernis, Eileen loved baseball, dogs and was brilliant in laboratory medicine. They quickly became very good friends. Eileen spent the last 30 years of her career at Good Samaritan working in the lab and training med tech students. She retired shortly before her death at the age of 68 in 2013. The following year, Vernis passed away at the age of 94.
Good Samaritan Hospital Laboratory Director, Kathleen Yoshimura (center) with students, Kevin Velarde (left) and Sarah Yamasaki (right). Kevin and Sarah are the most recent recipients of the Vernis G. Adams & Eileen A. Johnson Laboratory Scholarship Fund.
Mary Lacher Munson remembers her aunt Vernis fondly. “She never had children, but the 250 young people she trained became her children. She was special and medical technology was her life. We loved aunt Vernis. We just felt that something should be done to remember her and honor her life.” In recognition of their aunt Vernis, her colleague Eileen, and the lab intern program at Good Samaritan; Vernis’ nieces and nephews including: Mary, Rebecca Planer, Janie Schulzetnenberg, Norman Planer, Nola Bertelson, Alice “Judy” Gray, Bob Lacher and Dick Lacher created the Vernis G. Adams & Eileen A. Johnson Laboratory Scholarship.

A partnership that began in 2013, Cal State Dominguez Hills places med tech interns at Good Samaritan Hospital to gain training. The Vernis G. Adams & Eileen A. Johnson Laboratory Scholarship is given each year to two med tech students placed at Good Sam and provides each student with a $500 per month stipend during their 5th year of education. “The scholarship helps lessen the overall burden of the students’ educational expenses, while the hospital provides the hands-on training.”
If you would like to make a gift to the scholarship fund or to set up your own legacy gift, please contact Brian Thorne, Vice President of Fund Development at (213) 482-2774 or bthorne@goodsam.org.

The recipients of the Vernis G. Adams & Eileen A. Johnson Laboratory Scholarship Fund, Kevin Velarde and Sarah Yamasaki, work closely with lab technicians Alex Tsui and Joanne Vegara in the Good Samaritan Hospital laboratory.

The Vernis G. Adams & Eileen A. Johnson Laboratory Scholarship Fund is a fitting legacy to two women who devoted their lives to Good Sam and laboratory medicine.

med tech students placed at Good Sam and provides each student with a $500 per month stipend during their 5th year of education. “The scholarship helps lessen the overall burden of the students’ educational expenses, while the hospital provides the hands-on training. They train at Good Sam 32 hours per week and on Fridays they go to Cal State Dominguez Hills for their didactic study. When they’re not training in the lab, they’re studying and taking tests” explains Kathleen Yoshimura, Laboratory Director for Good Samaritan Hospital. It’s a partnership that truly benefits all thanks to the generosity and kindness of benefactors like Vernis G. Adams and Eileen A. Johnson.

The Vernis G. Adams & Eileen A. Johson Laboratory Scholarship Fund is a fitting legacy to two women who devoted their lives to Good Sam and laboratory medicine.
Good Samaritan Hospital’s 2016 Honor Roll of Donors

The Ambassadors of Good Samaritan Hospital

The distinguished members of the Ambassadors of Good Samaritan Hospital have taken the mission of our nonprofit hospital to heart with significant giving that helps keep the Hospital at the forefront of excellence. The Ambassadors are the cornerstone of Good Samaritan’s growth and development. Our members are the leading citizens, families, companies and foundations who support Good Samaritan Hospital with significant cumulative giving of $50,000 or more. It is with deep gratitude that we list their names in Good News.

Ms. Josephine Isip
Generous Gifts Made in Loving Memory and in Honor of

Good Samaritan Hospital invites the community to make donations in memory or in honor of family members, special friends and caregivers who deserve special tributes. Memorial and tribute gifts are ideal for commemorating the passing of a loved one, friend or colleague; celebrating a birthday, anniversary or special event; or honoring a special physician, nurse or caregiver in appreciation for exceptional care.

Legacy Society

The Good Samaritan Hospital Legacy Society is an association of concerned individuals who are leaving a legacy that will foster medical excellence for many years to come. The Legacy Society honors those special friends of Good Samaritan Hospital who have made provisions in their wills or estate plans to support the future growth and development of healthcare. Through their partnership in our future, these treasured friends of the Hospital are making a lasting contribution to the quality of life in Los Angeles by ensuring that the finest quality healthcare will be available for generations to come.

Members of the NICU staff at Good Samaritan Hospital.
Keri Eisenberg  
Sr. Director of Development

Keri Eisenberg joins Good Samaritan Hospital as Senior Director of Development, advancing fundraising initiatives for the Heart & Vascular Center. Keri comes to Good Samaritan from UCLA where she most recently served as the lead fundraiser for the UCLA Department of Urology and held progressively senior fundraising roles at the UCLA Anderson School of Management. Keri brings to Good Sam nearly 20 years of experience in the fields of development, marketing and advertising focused primarily around healthcare and higher education. Keri is looking forward to continuing Good Samaritan’s Tradition of Caring through advocacy and philanthropy.

Kimberly M. Cabral  
Annual Giving Manager

Kim Cabral comes to Good Samaritan Hospital most recently from St. John’s Seminary where she was responsible for establishing fundraising strategies for overall financial support. Kim has extensive experience in annual giving, special events, donor relations along with Raiser’s Edge. Prior to St. John’s Seminary, she worked in various for-profit businesses and at the USC Viterbi School of Engineering as the Associate Director, Stewardship and Annual Fund. Kim is excited to work for a hospital like Good Samaritan which has a rich history in caring for its community.

If you wish to be removed from future fundraising mailings, please email Fund Development at optout@goodsam.org or call (213) 977-2935.
The Heart and Vascular Center at Good Samaritan Hospital has a longstanding commitment to advancing the science of medicine and providing outstanding cardiac care. As one of the first hospitals in America to make groundbreaking therapies available to large numbers of patients, we have been expanding the boundaries of cardiac care for decades.

To stay on the cutting edge, our cardiologists need world-class equipment and facilities to transform heart care and make patient outcomes that once seemed impossible—routine. Now in the home stretch, the Campaign for Cardiology is a bold and essential step forward to substantially increase the capacity and efficiency of Good Samaritan Hospital’s already outstanding Heart and Vascular Center for years to come.

With your help, the Heart and Vascular Center will be home to the best equipped catheterization and electrophysiology labs in the Los Angeles area enabling our premier team of cardiologists to deliver unparalleled levels of care to cardiac patients.

**Together we can make the impossible possible for our patients. What will you make possible?**

*To make a gift or for further information, please contact Keri Eisenberg, Sr. Director of Development, at (213) 977-2921 or keisenberg@goodsam.org.*
