

## Attention: Physician Offices

### ICD-10 Coding Go Live – October 1, 2015

#### For Physician Office Staff:

- Specific ICD diagnosis text and coding for physician billing is needed
- New GSH outpatient study order forms provide reference to common diagnoses & codes
- Hospitalized Patient ICD-10 Code Summary is available in Meditech, which can be accessed remotely via Citrix

#### Timely coding is dependent on timely documentation

- ✓ H & P must be completed on admission
- ✓ Consultation Reports must be completed at time of consult
- ✓ Problem List must be updated daily, as appropriate
- ✓ Operative Reports must be completed within 6 hours post-procedure
- ✓ Discharge Summary must be completed at time of discharge

With complete documentation, Hospitalized Patient ICD-10 Code Summary will be available 5 days after discharge for your review.

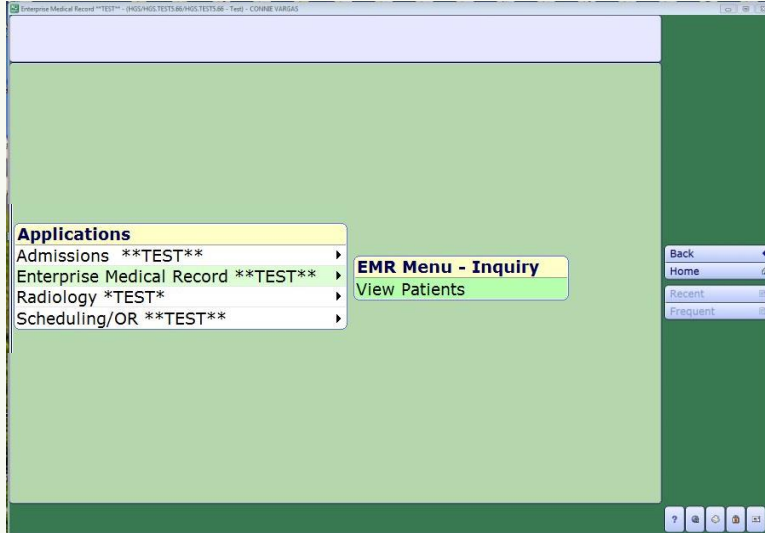

For access or assistance, please contact:

Michele Lefever at 213.977.4068

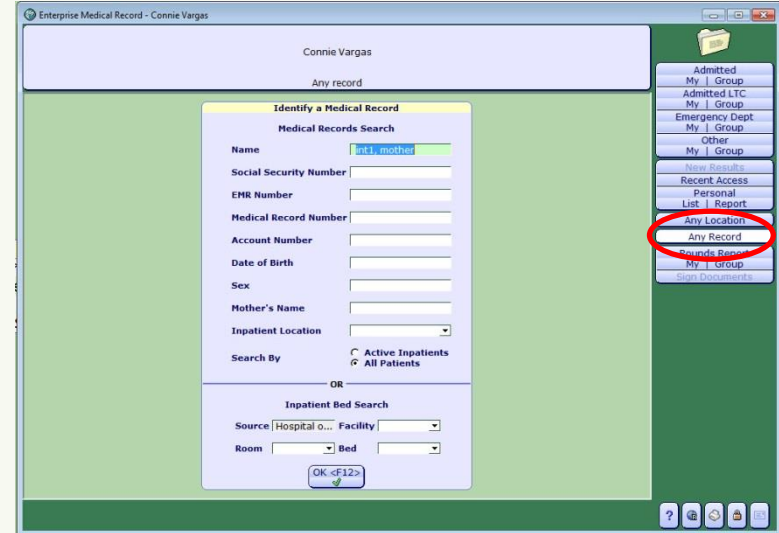

Please see reverse for instructions on how to access Patient ICD-10 Code Summary

# To view the ICD-10 coded abstract, log in to Meditech via Citrix

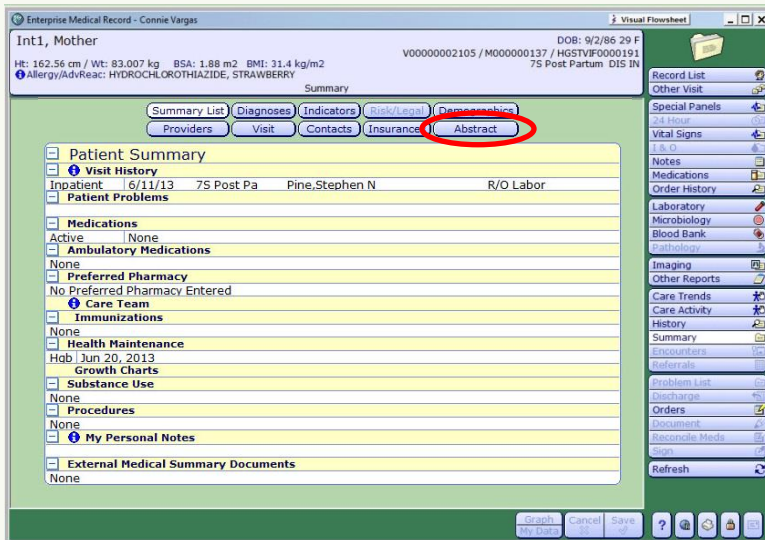

1) Log in to the EMR and select View Patients

2) Select Any Record and search for your patient

3) Select the visit and the screen below will open. Click the Abstract tab

4) From the Abstract tab, you may view the Summary List, Diagnosis, DRG Data and the Operative Episodes
